

PSR-E

PS Automation 
Gesellschaft für Antriebstechnik

We care for actuation.

The strong quarter-turn actuator for up to 50 Nm

Pre-adjusted switching cams

The cams of the cut-off and position signalling switches are vibration-proof and pre-adjusted by PS Automation.

Comfortable manual override

due to „Push and Turn“. Automatic reengagement.

Reliable even under harsh conditions

Ideal for industrial environments: cover made of UV-resistant polycarbonate, degree of protection IP65.

Easily visible position indicator

shows the current position of the valve on a big scale with OPEN/CLOSE symbols.

Robust gearbox
made from high quality aluminium.

Externally adjustable stop screw
prevents from manual overriding of the closed position.

Strong and efficient

maintenance-free, high-efficiency and low-noise spur gear resulting in low-wear and long lifetime.
